Yes Angela was able to get Cindy Fanning who will start today and assist her for a couple of weeks.

We do appreciate your willingness to help. Take care

Jane,

Are you saying Doug does not need to be up there today and tomorrow, and I don't need to be up there Friday? Just want clarification.

Thanks!

Shannon

Hi Shannon,

We just wrapped up our 3:00 update with Angela. Cyndi Fanning from 6AX is stepping in to assist, you, Doug and Melinda can step down.

Thanks

jane

Jane,

Do you have a list of POCs for the on-call list? We are needing them ASAP. We have at least one question we need to send to a POC.

Thanks!

Shannon

Jane,

If not needed up here on 8, I can try to call in for 15 min. Melinda leaves at 1 pm, and I have a call I have to get on at 1 pm.

Shannon

Subject: Gold King Mine support huddle

Hello Everyone,

I'd like to convene a huddle in my office at 12:45 to put together a staffing plan to support the response to the Gold King Mine spill.

There are two needs right now that we're going to help with.

- [redacted] Assist Environmental Unit (Jon Rauscher and Phil Turner) in comparing the ambient water and sediment data that is being collected to the benchmarks that have been selected
- [redacted] Serve as POC for the EU to ask questions that relate to standards and monitoring

See you all soon,

Jane

Shannon: if you'd like to patch in by phone, just call my office number.
